

## Professional Summary

Software Engineering student at the University of Brasília, seeking opportunities for professional and practical growth in technology, innovation, and software development. Strong foundation in collaborating with stakeholders to determine requirements and develop solutions. Experienced in coding and implementation, task breakdown, and system monitoring. Dedicated to continuous improvement and learning, with a focus on enhancing product reliability, efficiency, and performance.

## Employment History

### 1 - Full-Stack developer, Project DACES/UnB, Brasília DF (University Extension Project)

March 2023 — July 2023

Worked on a university extension project to develop assistive technologies for enhancing quality of life at the University of Brasília. Utilized Flutter and Dart for the front-end, and Node.js and MySQL for the back-end, with Git and GitLab for version control. Developed a mobile app to aid the safe and autonomous locomotion of people with disabilities on campus, featuring community-based navigation and audio descriptions for the Darcy Ribeiro campus, with plans for expansion to other campuses.

### 2 - Front-End developer, Pagglo, Brasília DF (Internship)

December 2023 - Present

Front-end development of iOS and Android applications using technologies such as React Native, Redux Toolkit, TypeScript, JavaScript, Postman API, Git, and GitHub.

### 3 - Full-Stack developer, UnB/DNIT, Brasília DF

March 2023 — July 2023

Worked on front-end and back-end development for an application for DNIT (National Department of Infrastructure and Transport). The project utilized the following technologies: .NET, C#, REACT, TypeScript, PostgreSQL, Git, GitHub, and FIGMA.

## Education

Higher Education, University of Brasília (UnB)

July 2021 - Present

- Expected completion of the Software Engineering program in 2026/2027.

Ensino médio, Colégio Sigma, Brasília

January 2017 — December 2020

- Graduated

## Skills

### Soft Skills

- Communication
- Problem Solving
- Proactivity
- Compromise
- Creativity
- Resilience

### Tech Skills

- Flutter
- Dart
- IOS
- HTML/CSS
- React
- React Native
- JS/TSX
- Redux TK
- Git
- GitHub
- GitLab
- Figma
- Python
- C++/C#/C
- Java
- .NET
- SQL
- MySQL
- PostgreSQL

## Languages

English

Portuguese

Spanish

## Extra courses

Certification of participation in the NLW IA event, RocketSeat

September 2023 - September 2023

Certificação em participação no evento da NLW Expert em React Native, RocketSeat

February 2024 - February 2024
